Description:

When young Kimberly Chang and her mother emigrate from Hong Kong to America, they speak no English and own nothing but debt. They arrive in New York hopeful for a better life, but find instead a squalid Brooklyn apartment and backbreaking labor in a Chinatown sweatshop. Unable to accept this as her future, Kim decides to use her talent for school to earn a place for herself and her mother in their adopted country. Disguising the most difficult truths of her meager existence, Kim embarks on a double life: an exceptional student by day, and a sweatshop worker by evening. In

time, Kim learns to translate not just her language but herself, back and forth between two worlds, between hardship and triumph, heartbreak and love, and all that gets lost in translation.

I had some ambivalence about this book at first, and mostly read it out of curiosity because it received such great reviews. The ambivalence was due to similarities between my own life and the characters - I am Asian, I immigrated to the US when I was thirteen, my previously well educated and professional parents became rough laborers, we were poor, I struggled with language and assimilation, and went on to two Ivy Leagues. So I thought: what can this book possibly tell me? Should there be such books to further the stereotype of the Chinese immigrant, who came to the U.S. poverty stricken and struggle to become doctors and lawyers? I chose to read it for two reasons: curiosity, and the fact that the author gave up science to become a writer and obtain an MFA - not very Chinese. I realized she must have had guts to risk the more certain path of a structured profession, for a career in writing. So I gave it a go. In the end, I do have to admit that I am probably a biased reader. Having had first hand experiences quite similar to the characters, there were times when I broke down while reading the book. It uncovered a lot of wounds and shame that I thought had gone away. I relived many painful moments which had been forgotten or buried away, and reminded me of who I was. Again, I realize this comes from a very specific perspective, but for having reacquainted me with an old sad self, I give it five stars.
